EXPERIENCE

TSL Intelligence Labs, Inc. (formerly TpISENT, Inc.)
Sep 2026 – Present

Founder & Principal Consultant · New York, NY (remote)

- Lead Architect, presales solution engineering, post-sales architecture, partner enablement and team enablement for US, UK and EU clients, corp-to-corp
- Design agentic harnesses (rules, hooks, commands, purpose-built agents) so delivery teams can run an AI-led SDLC and DevSecOps with enterprise-grade review gates and evidence trails
- Deliver 48-contact-hour architecture and engineering intensives and executive cohorts on agentic AI, responsible AI and AI-led delivery; mentor and coach architects, engineers, IT leaders and founders

TpGroup (SL) Limited
Present

Chief Executive Officer & Co-Founder · Freetown, Sierra Leone

- Strategy, capital allocation and governance for a 50+ person group in education technology (TpEMIS, TpLEARN, TpISENT Talent Development), real estate (TpESTATE) and heritage tourism (Fambul Tik); 30%+ of profits reinvested in community development
- Led The Eco-Living Oasis at Kent, Sierra Leone's first sustainable vacation community, from first drawing to opening (Nov 2021 – Nov 2026), roughly 80% local and natural materials; ran a 2019 study tour bringing 58+ Gullah descendants and historians to Sierra Leone

Accenture Song
Oct 2020 – Sep 2026

Senior Manager, OmniChannel Technology · Global Practice Lead, Digital Experience Platform Portfolio · North America Practice Lead · New York, NY

- Built and led the emerging DXP global practice across 10+ platform alliances (Contentstack, Contentful, Liferay, Optimizely, WordPress VIP, Pantheon, Amplience, Uniform): US $50M–96M pipeline, 1,500+ practitioners across the India, Mexico and Costa Rica delivery centres; built, staffed and certified the open-source bench for every programme, then handed it over and repeated
- SME/architect, technology architect and technical delivery lead simultaneously across 20+ enterprise engagements; designated SME/SMA status on eleven DXP/CMS platforms; multi-year member of the Acquia Drupal Strategic Committee and the Contentstack Strategic Partner Group, contributing product feedback and direction
- Shaped and led US $100M+ in active pipeline across seven concurrent pursuits in FY26; averaged roughly US $44M in pipeline led and US $6M in revenue a year
- FY26: client service delivery and MarTech assessment lead for two concurrent clients (a US energy retailer, a national entertainment-industry union); DAM functional lead on a consumer goods company's Bynder assessment, with an AI agent I built accelerating the team; sold and delivered a global insurer's performance-tuning assessment solo
- Led three concurrent engagements for a global technology company as DXP lead and architect, growing the offshore team from 5 to 20+ (peak 30+) and winning a second phase; Contentstack solution architect for a US specialty retailer, earning contract extensions
- Delivered a US $2.5M flagship brand relaunch for a global spirits company with 33 FTEs (600,000 consumer records migrated, customer identity for 50 brands) on time and on budget after a documented turnaround of client confidence; delivery lead for a top-five pharmaceutical company's WordPress VIP capability factory, developing a successor architect and handing over to the India team
- Built agentic tooling (rules, hooks, commands, purpose-built agents) enabling teams to run an AI-led SDLC and DevSecOps, used on programmes valued at over $10M; first cohort of ~150 Reinvention Deployed Engineers; Technology Quotient 14/14, Agentic AI assessment passed; 38 AI courses (180+ hours) in one year

- Faculty across the Architecture (TAF, MAPS, AAS, ETAS), Analysts and Experience Hire schools: 55+ teaching engagements, 8,000+ students and practitioners; FY23 Bronze and FY25 Gold Faculty Awards; Bronze Faculty tier, Reinvention with Agentic AI; mentored teams to certification until Accenture led Acquia Drupal certifications globally (2017–2019)

Accenture Interactive Jan 2018 – Mar 2021

Drupal Practice Lead & Technology Architect · New York, NY

- Led the Drupal practice and served as technology architect on digital experience programmes across life sciences, consumer and public-sector clients
- Content technology lead for a global pharmaceutical company across five countries (Germany, Canada, India, China, Japan): global CMS assessment, gap analysis and future-state platform strategy
- Application Architect for the State of North Carolina Department of Health and Human Services (Apr 2020 – Mar 2021): re-architected COVID-19 public information platforms for unpredictable peak demand

Accenture Federal Services May 2016 – Jan 2020

Business Process Architect, Senior Manager · United States (two sites)

- Integration and business process architect on a four-year programme migrating one of the highest-traffic US federal web estates (9.4M average, 21.7M peak daily page views) to a modern content platform on managed cloud: 159,000 pages, 113,000 static files, 60,000 HTML pages and 326 media assets, to schedule and budget
- Cut recurring subscription fees by US $120K+ a year through platform and identity integration and single sign-on; mobilised, trained, coached and mentored the developer and test team in San Antonio, Texas

Accenture Mar 2015 – Dec 2017

Technology Developer Manager · New York, NY

- Established MarTech and DXP centres of excellence in Mexico (2015), Costa Rica (2016) and India (2017): recruited, trained and certified the architects and engineers, set the delivery standards, then handed ownership to local leadership
- Architected digital connected-products platforms for IoT use cases (connected vehicles and fleets, smart buildings, connected commerce, blockchain asset management); technology architect and delivery lead for a global design-software company's developer portal, on time and on budget

CDI Corporation Apr 2014 – Mar 2015

Application Programmer / Drupal Consultant, embedded at the New York State Office of Information Technology Services · Albany, NY

- Managed a portfolio of 40+ state agency websites including ny.gov; documented and improved platform standards

Pace University 2014 – 2020

Adjunct Professor, Seidenberg School of Computer Science and Information Systems · New York, NY

- Taught IT610, Web Development with Content Management Systems, to graduate students (Drupal, WordPress, Joomla, headless CMS); students built and deployed complete CMS-based websites as capstones

SaloneTech Business Solutions LLC May 2005 – Apr 2014

Co-Founder, Technical Architect & Senior Project Manager · New York, NY and Freetown, Sierra Leone

- Co-founded a Drupal, WordPress and Joomla firm; grew a US $250,000+ portfolio running three concurrent projects a month, scaling the team from 4 to 25 in twelve months
- Configuration lead, front-end/UI lead and Section 508 SME on New York City Department of Education's special education case management system (SESIS, 2009 – 2013), 1,600+ schools and 200,000+ students; recommendations adopted into the vendor's core product
- Project manager and lead architect for IFES election-violence monitoring platforms in the Maldives and Senegal (130 monitors), delivered against a fixed election date with follow-the-sun teams
- Led digital transformation for Njala University and the University of Sierra Leone at US $15,000 against a US $40,000 independent budget; delivered the Government of Sierra Leone Open Government Initiative platform; designed solar-capable thin-client school laboratories cutting operating cost by about 40%

Canon Business Solutions Oct 2007 – Nov 2009

Pre- and Post-Sales Engineer (Digital Systems Engineer) · New York, NY

EDUCATION

M.Sc., Information Management and Telecommunications — Polytechnic Institute of New York University (now NYU Tandon School of Engineering); graduated top of class 2010

B.Sc., Information Technology and Telecommunications — New York Institute of Technology; cum laude 2008

A.A.S., Applied Science — TCI College of Technology, New York; magna cum laude 2006
